EXPERIENCE

General Assembly *(Software Engineering, Intensive Program)*
Feb, 2019 - Feb, 2020 (Greater Boston Area)

12 week, 500+ hour immersive course. Built applications from the ground up using key programming languages and frameworks.

Effectively communicated and collaborated with web development teams to carry out projects from concept to completion

Todooli - Todooli is a 'to do list' application built using Ruby on Rails and my first application using React and it allows users to track personal tasks.

InVOC - InVOC, A learning application for students to build relationships with their vocabulary words over time.

Tic-Tac-Toe - Tic-Tac-Toe game built with a custom JavaScript engine and a unique user interface using simply html and css.

Let's Hang - An events application that allows users to post, edit, delete, and RSVP to other user's events. This was a collaboration between four learning developers.

Ricoh Corporation *(Field Service Representative)*
Feb, 2019 - Feb, 2020 (Greater Boston Area)

Provided support to multiple sites across the Greater Boston Area for volume-building opportunities and expansion of services

Observed work-flow and wrote site procedure guides to improve current order of operations to increase productivity

Maintain strong working relationships with site leaders and contacts to improve customer satisfaction

Sephora *(Operations Consultant)*
Dec, 2010 - Current (Boston, MA)

Maintained/organized/accounted for stock levels and product shipments (incoming and outgoing), reducing losses to store's all-time low

Purchaser for storewide supplies and maintained budgets

New hire onboarding support and training for employees throughout the district, as well as, new store opening set up and assistance.

Scheduled and approved of maintenance performances: electric, plumbing, HVAC

Revere Public Schools *(Teacher/Long-term Substitute)*
August, 2010 - June 2011

Independently design, create, and executed lesson plans for classes of various levels for extended periods of time in teacher's absence.

Managed classrooms of various sizes and students of various needs, emotional and physical

Guided students during MCAS exams on multiple occasions
